

Port Reception Facilities Introduction to the project

Harrie de Leijer
Project Director

Translating facts into vision

- ◆ Port Reception Facilities Study Croatia
- ◆ Financed under the European Union's Phare Programme for the Republic of Croatia
- ◆ In line with the Pre-accession Maritime Transport Strategy developed in accordance with the opinion on Croatia's Application for Membership of the European Union
- ◆ Notably: to provide within the ports adequate facilities for the reception of oily waters, garbage and cargo residues

Consortium:

- ◆ NEA, PM, Team of experts

Present today:

- ◆ Jean-Claude Sainlos: Team Leader
- ◆ Darko Domovic: Senior Technical Expert
- ◆ Rob Scheepbouwer: Financial Expert
- ◆ Harrie de Leijer: Project Director

Project execution:

- ◆ In close co-operation with the stakeholders

- ◆ Setting up a comprehensive, efficient and harmonized port reception facilities system fully in line with the EU Directive
- ◆ Ensuring a uniform interpretation and implementation of the Croatian legal regime
- ◆ Introducing as the main component of the cost recovery regime a generalized, harmonized, transparent and effective indirect fee payment
- ◆ Enhancing the technical efficiency and economic viability
