**25/08/2016, Rijeka , Uwe Liebschner**

Logistics and Customs Clearance

Important goal →

- **Logistics industry = In-time delivery !**

- **Customs = Supervision + control + duties**

→ **IT Solutions = SW + PCS**

IPCSA
International Port
Community Systems
Association

EU – On the way to EU Single Window

- Reporting formalities directive – 2010/65
- Single market act II
- UCC →
  - Article 6
  - EU SW
- DG Move →
  - E-Manifest
  - MSW

IPCSA
International Port
Community Systems
Association

Single Window

MSW → activities DG Move

- "New" Extension MSW / e-Manifest pilot
  - Arrival Notification
  - Notification about Presentation
  - Declaration for Temporary Storage
  - Not included = ENS

EU SW → activities DG TAXUD

- Partner in the e-Manifest project / supporting DG Move
- PG for an SW approach on Customs issues from Q 4 / 2016

IPCSA @ copyright 2014

Single Window

MSW → current situation

- **FAL 1 – vessel notification**
- **FAL 2 – cargo manifest**   **= Customs information**
- FAL 3 – ship store
- FAL 4 – personal affairs
- **FAL 5 – crew member list**
- **FAL 6 – passenger list**
- **FAL 7 – dangerous goods**

EXCLUDED from MSW

IPCSA
International Port
Community Systems
Association

Single Window + PCS

Problems / issues →

- **Time factor / response times**

- **Process flow for message exchange**

- **Data content – mandatory information**

- **Validation scheme?**

- **Amendments / adjustments**

- **Responsibility / confidentiality → re-use of data**

- **Temporary Storage = today no harmonisation**

→ Port Community System = interface solution ?!

Port Community Systems

Solution →

- **Manifest in ports =**
  - **Private industry level: need for logistical flow !**
  - **Administration level: MSW + Customs**
- **PCS receives this information for the private sector and prepare the necessary notifications / messages for all parties; in particular also for customs**
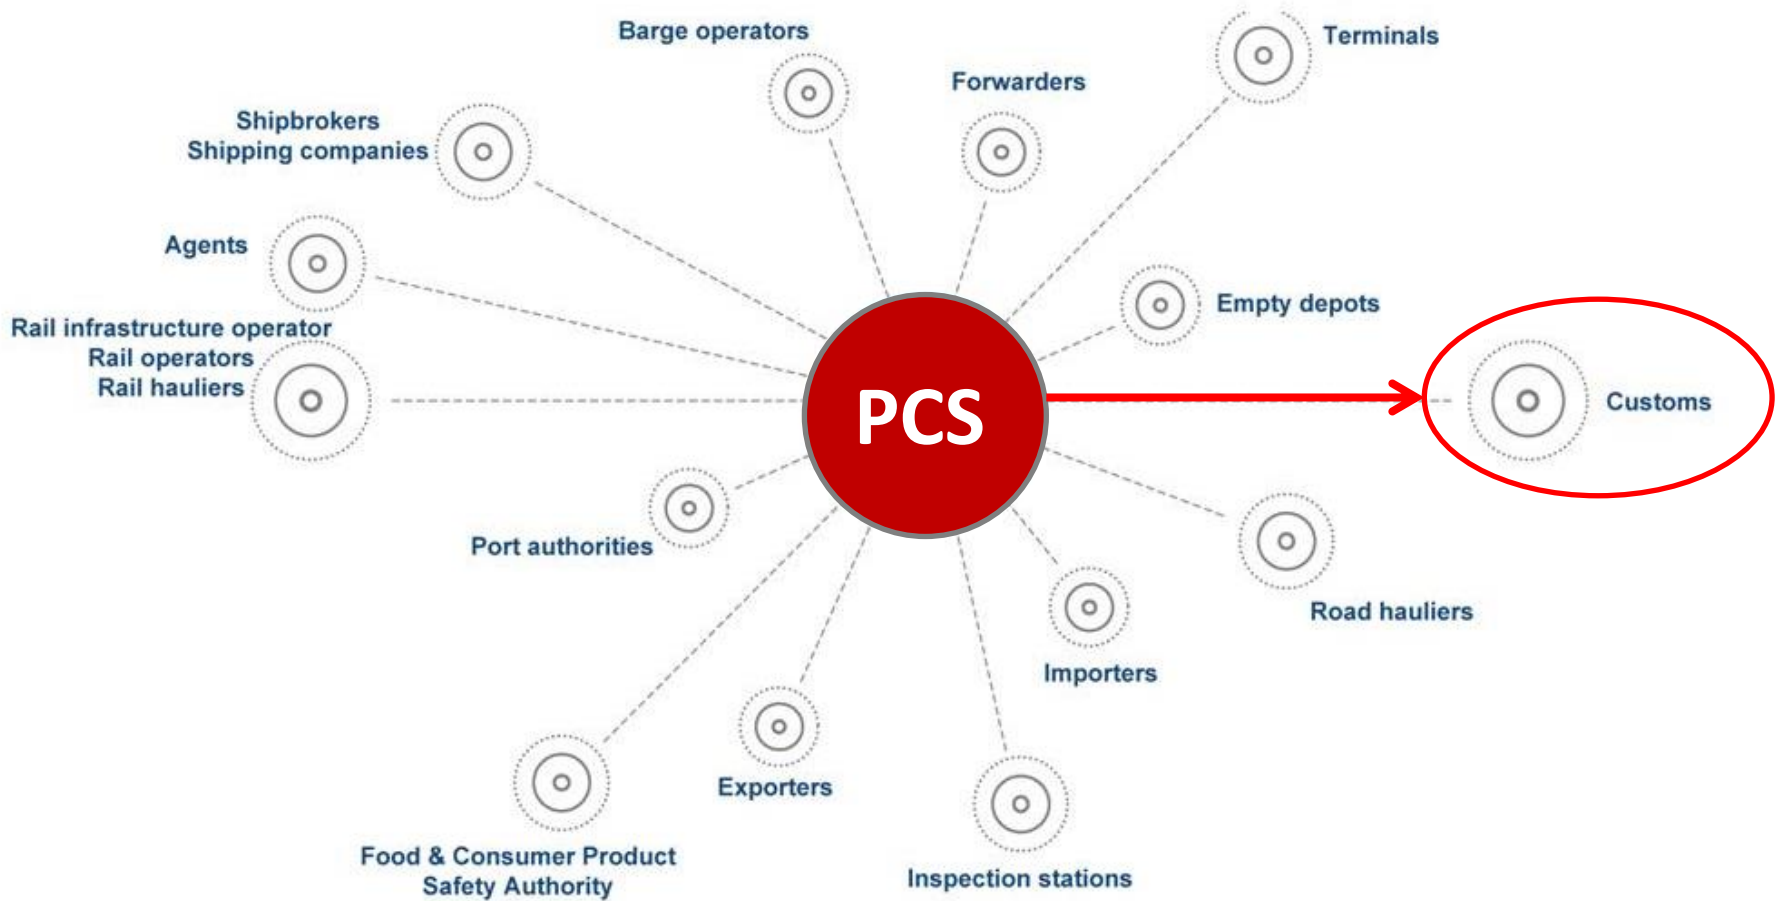

→ PCS = IT Gateway / data collector + data distributor

Single Window

What to do next? → SW

- **Extensive analysis**

- **COM + MS + Trade = create a business case document**

- **Define clearly the scope**

- **Tests within the pilot project**

- **Discussions on EU level (TAXUD) about MASP**

Thank you for your attention!
Hvala za svoju pozornost!
